

PRODUCT FEATURES

A booster for fruits and flowers, Manutec Liquid Potash⁺ provides a balanced supply of Potassium (K) during the initial growth stages, improves a plants ability to tolerate stress from drought, extreme temperatures and resistance to pests and diseases. An adequate supply of Potassium is critical during flowering and fruiting periods -improving colour, quality, size, firmness and shelf life of fruits and flowers. Manutec Liquid Potash⁺ is quick acting with visible results, suitable for vegetables, fruiting and flowering plants and lawns.

ANALYSIS

ANALYSIS	%W/W
Total Phosphorus (P)	2.0
Potassium (K) as Carbonate	11.5
Potassium (K) as Phosphate	2.5
Total Potassium (K)	14.0

Available in:

450ml Bottles - 6 per carton

Code: MTO3404

Barcode: 9312462450417

2L bottles - 4 per carton

Code: MTO3424

Barcode: 9312462452428

DIRECTIONS FOR USE

1. Shake bottle well before use.
2. Remove bottle over cap and dilute with water as directed.
3. Apply to foliage & soil by watering can, hose-on spray bottles or pressure sprayer.

CONTAINER	DILUTION
Watering Can (Full Dilution)	1 capful (20ml) to each 10L of water.
2L Hose-On Bottle Pressure Sprayer	6 capfuls (120ml) to each 2L of water.

WHEN TO APPLY:

Apply every 2 weeks (fortnightly) from pre-flowering through to end of flower /crop development. After concentrate applications, ensure followed by a good watering. Avoid applying on hot sunny days. It's best to apply early mornings or evenings.

NOTE: For young sensitive plants, apply at half dilution rate. Mix solutions at 10ml (half cap measure) Liquid Potash⁺ to each 10 litres of water.
